

# Regional Sales and Profit Forecast

Team ID	PNT2022TMID15445
Project Name	Project – Global Sales Data Analytics

## Selecting the Template

The screenshot displays the IBM Cognos Analytics web application interface. The top navigation bar includes the IBM Cognos Analytics with Watson logo, a 'New dashboard' button, and a search bar. The left sidebar shows the 'Selected sources' pane with a search bar and a tree view of data sources. The 'Global\_Superstore DataPrepare' source is expanded, showing a list of fields: 'Navigation paths', 'Order\_Date', 'Order\_year', 'Order\_Month', 'Order\_day', 'Global\_Superstore2.csv', 'All', 'Order\_day', 'Order\_Month', 'Order\_year', '# Row ID', and 'abc Order ID'. The 'Order\_day' field is selected. The main workspace shows a line chart visualization with a grid background. The right sidebar contains the 'Properties' pane, which is currently empty, showing fields for 'x-axis', 'y-axis', 'Color', 'Repeat (column)', 'Repeat (row)', and 'Tooltip'. The 'x-axis' and 'y-axis' fields are marked as 'Required field'.
